WORK EXPERIENCE (Frontend Developer)

Cofynd Infotech Pvt Ltd

(Feb 2023 - Present)

- Designed and developed a platform for searching & booking coworking and office spaces, a dynamic React website from scratch, utilizing various libraries and technologies to showcase company products/services. Ensured captivating design and seamless functionality, contributing to the company's online presence and growth.
 - Created an efficient and user-friendly admin panel to manage and store data for website. Implemented essential features for seamless data management, contributing to improved website maintenance and overall efficiency.
 - Transformed an outdated, static website with approximately 200 static pages into a dynamic, user-centric platform for searching Residential & Commercial properties with a seamless search functionality.
 - Skillfully managing company's other websites also, ensuring their seamless operation, engaging design, and relevant content. Responsible for updates, maintenance, and optimizations, contributing to enhanced user experience and overall online presence.
-

PROJECTS

- **Propularity - Real Estate Website:** Led the development of a fully dynamic real estate website for searching residential & commercial properties, using cutting-edge technologies to provide an immersive user experience. Employed ReactJs for the front end, along with HTML, CSS, and Bootstrap5 to ensure a responsive and visually appealing design. Integrated GraphQL API for efficient data retrieval and seamless updates.
 - **Cloud Nine Rooms:** Developed a dynamic and responsive website for searching Coliving/PGs into Gurugram. The website provides an interactive user interface for booking rooms and exploring amenities.
-
